

The **BEESA GROUP** is committed to promoting economic growth within South Africa through the implementation of Sustainable BEE. We have developed products and services that help businesses of all sizes understand and implement BEE in tangible ways.

### **Promoting Economic Growth**

**BEESA** is involved with economic growth over and above BEE, because we believe that BEE works and is the ideal solution required to grow the South African Economy.

We believe in implementing holistic strategies that aim to grow both our clients businesses and the South African economy in general. If BEE is implemented as a transformational strategy it works and our clients are the proof!

### **Providing Comprehensive Solutions**

**BEESA** has been involved with transformation since the beginning and understand the intricacies of the Codes of Good Practice; this gives us the capacity to provide comprehensive well thought through best practice solutions.

**BEESA** benefits from more than 30 years combined transformation experience.

### **Preparing Clients for the Future**

We help our clients to understand that the future is bright and prepare them for the economic boom that will be the result of implementing transformation in strategic and intentional ways.

**BEESA** offers comprehensive BEE services through their following divisions:

- **BEESA Consulting**

BEESA consulting offers consulting and education based on best practice established over more than 20 years combined experience in BEE

- **BEE.co.za**

BEE.co.za is "your Comprehensive Online BEE information Portal" and offers information, training, events and solutions to the South African BEE industry

- **SEDISA**

SEDISA (Socio-Economic Development Initiative South Africa) provides specialised socio-economic development consulting and programme management

- **Exempt**

Exempt offers clients the ability to get an exempted micro enterprise BEE certificate. It is currently the most cost-effective option on the market and helps small businesses take advantage of BEE

- **BEESA Enterprise Development Services**

EDS offers specialised enterprise development services to South African businesses. EDS provides fund management, programme development and programme management. Over the past 2 years EDS has facilitated R1.9BN in enterprise development programmes

- **Veriquote**

Veriquote offers clients an anonymous BEE certificate tool, making sure that our clients receive the best possible quote from BEE verification Agents. Clients submit information into the system where it is sent anonymously to verification agents who then send their best quotes

- **BEESA Boxsmart**

BOXSMART is designed to assist Qualifying Small Enterprises (QSEs- companies with an annual turnover between R5 - R35 million) secure an annual BEE Certificate. BOXSMART can be used by all owners and managers of businesses, regardless of their current BEE knowledge

- **BEE Institute**

The BEE institute provides a platform that promotes networking amongst BEE practitioners and provides resources and best practice guidance
