Regular insightful updates on relevant new laws

CG provides a twice-monthly newsletter containing SA national law, regulations, bills and draft laws of relevance to business as well as articles on how these laws impact on strategy, risk management, compliance and business processes.

Each item is hyperlinked to the website and carries a short executive summary on the particular law.

Comprehensive database of new laws

New laws can be searched according to category (BEE, Corporate, Financial etc), by type (Act, Regulation, Bills, Draft laws, Articles), by latest additions or by simply typing in the relevant key word.

An executive summary, overview, fuller text and related matters are provided.

Independent service

CG is not related to the government and is not part of the government printer that publishes the Government Gazette. We filter the important gazettes and other laws and provide intelligent insight into the material together with the material.
